

Quest Users Invitation to Sign Up for New RIDOT Bidding System Overview and Training Sessions

Overview Sessions

Ocean State Procures™ is the State's new comprehensive e-Procurement system, and the Department of Transportation is excited to begin using this system to support the bid process currently being conducted on Quest. Our intention is to conduct a small number of "pilot" bids on the new system during Quarter 1 of the state's new fiscal year (July-September). We would like to offer members of your firm an opportunity to receive web-based training on the new system.

We will offer two overview sessions to demonstrate the functionality of the new system, including how to navigate the new bid board and how to prepare and submit bids. . Click **here**

to register for one of these sessions:

- Tuesday, July 14, 3:00 - 4:00 pm ET
- Thursday, July 16, 3:00 - 4:00 pm ET

In-Depth Training Sessions

In addition, firms may also register for a more in-depth training session. These trainings will include a hands-on exercise in the new system, which are intended for individuals who currently use Quest, or will perform a similar role in the new system.

These sessions will be led by trainers from Proactis, who is our technology partner implementing OSP, during the week beginning Monday, July 20.
